TimingResearch Crowd Forecast Newsletter (Beta)
Week 82 – 04/19/15 Report

Open-ended responses for Questions #1, #4, and #5 start on page 3.

Question #2. Based on any technical or fundamental indicators you want to use, would you predict that the S&P 500 index will move higher or lower next week? (from Monday's open to Friday's close; April 20-24)

Higher: 59.7%
Lower: 40.3%

Question #3. Rate your confidence in your answer to Question #2 on a scale of 0 to 10 (with 0 being no confidence and 10 being extremely confident).
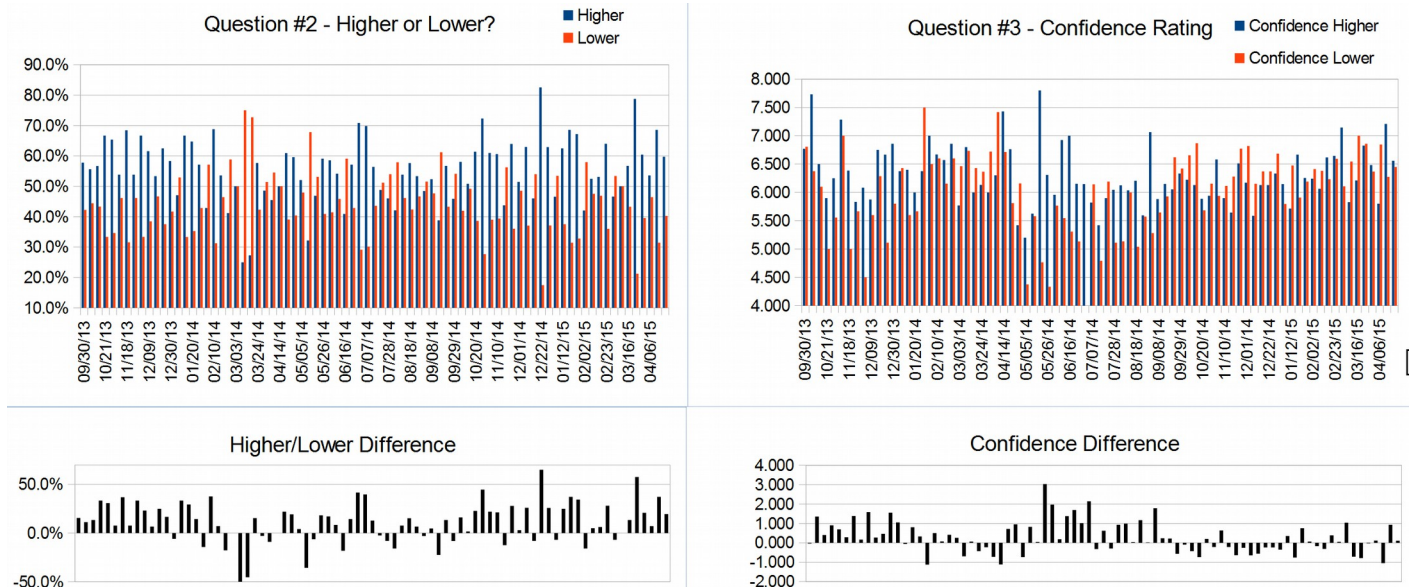

Average of All Responses: 6.514
Average For "Higher" Responses: 6.558
Average For "Lower" Responses: 6.448

Responses Submitted This Week: 73

Brief Analysis: Last week's bullish sentiment turned out to be incorrect as the S&P500 index fell 0.99%. Strong bullishness continues this week while average confidence is almost exactly even on both sites.

Raw Data Page (raw data files include full history spreadsheet and the above charts): TimingResearch.com/rawdata.

Full Weekly Results (full version of this chart available in the raw data spreadsheet for this week, "Date" field below lists the Monday of the week being predicted).

Correct Percentage: 48.1%

	Date	Higher	Lower	H/L Diff	Avg Confidence	Confidence Higher	Confidence Lower	Con Diff	Guess	Actual	Correct?

Question #1. What developing events (technical or fundamental) will you be watching out for next week (April 20-24) that might have a positive or negative impact on the S&P 500 and other US markets?

- Early Openint the Dow Nasdac S&P 500
  Political Events, Primarily announcements by the Obama Administration.
- china/ elliot wave
- Dollar price action and the price of oil.
- china events
- positive impact in history of Market
- greece
- On the24th the Durable Goods Order which will indicate the state of production activity in the US. This is the only thing I see that might have an effect on the S&P 500.
- Bond market
- greek
- more QE
- Home Sales, Unemployment, Greece. SPY key suuport/resistance around 206 and 211.
- 50 day MA
- Earnings reports. Market should go higher, but earnings will hold in check.
- GREXIT
- Brent Crude correlation will effect the S&P500. It has been bullish this week but I feel some retracement will happen before return to a bullish trend. Should mean bullish effect on S&P500.
- Earnings, grexit, MidEast flare-up
- Iran and Huthi vs Saudi
- Earnings, Greece
- Not much in the way of economic news next week so earnings reports might dominate - weak reports so far.
- Earnings
- Ernings
- holding current levels + or _ 20 points
- Major beta sticks like Google AAPL Msft earnings release
- Greece
- Greece, earnings, downward momentum.
- earnings
- GOLD
- ^vxv/^vxo (> 1.2 sell the market; < 1.0 buy the market)
- always watch FED reports, news from oil producing regions, any change to interest rates, any news on terrorists activity that may cause even short term market reactions.
- The US dollar and the GDP Indicators
- Us earnings
- Earnings and Greece

- Greek reaction to no new loans coming soon, iran still moving in Yemen, Obama positioning ISIS in N. Mexico
- Earnings
- Technical indicators will blow thru their 50 and 200 day averages on the downside big time.
- earnings
- support and resistance + mov'g ave.'s
- international scene
- Whether Greece will leave the Euro or be forced out.
- Earnings
- Earnings, Greece, jobless claims
- dollar
- Housing, Greece, Oil
- If the downward trend in the markets will continue or not.
- The Chinese stock market. The war in Iraq.
- Earnings
- Earnings reactions
- Q1 earnings and geopolitical events
- you never know
- Monday opening and Greece payback
- Rate hikes decision
- will 2055 composite lvn on ES hold or will it break for lower price action.

Question #4. If you could spend a day with a professional trader, what would you most like to learn from them?

- Questions of the Dollar, World Threats, US unrest based on created divisiveness.
- How to spot turning points
- Todd Gordon
- How they run their trading business.
- Setting up total trading system and strategy plus screening criteria for stocks/etfs and when to enter/when to exit.
- Negative and trends
- how to tell when market turn
- "In which Market do you mean? I trade Forex and Options and will answer for those two categories.
  In Forex I would ask which indicator predicts the present and future price of a currency pair the best. I'm not as familiar with options because I am just learning but I would ask under what circumstances would you trade ITM, OTM, and ATM Options?"
- Leading idicators
- perfect timing on option purchase
- Option pricing models beyond Black-Scholes... Writing algos for dummies ;)
- how he changes his thinking from his blueprint for day according to developments. and whole approch and process
- Do spreads in options REALLY work (they haven't for me)? What is the advantage of butterflies and condors except paying more fees?
- if they were employing traders if they work for a trading company?
- Stick to the trading rules
- Pivots, entries & exits
- The difference between trading and speculating.
- Trade management. Especially, winning trades.
- Mind-Set
- How they compete with the larger players
- Information they use to examine a stick before buying it
- Risk Management
- How much money do they really make annually and how big an account do they need to make it.
- How to cut losses and let profits run.
- Reliable leading indicators.
- What they did wrong and how they fixed it.
- the most likely trend of the Dow and spx in the next month and the range.
- Reading chartchart analysis
- What they feel when entering a trade. How confident do they feel.
- Can they teach me anything...
- How do they minimize their taxes on the stock gains
- how to learn to trade different strategies like calender butterfly with one on one mentoring
- How they do what they do.
- market timing
- Technical Analysis
- The ability to pick proftiable entry and exits for trades.
- position size

- what they look for as an indication of a stocks direction before it moves
- How do you determine at what price to buy and what price to sell?
- What trades or trades would he do to make $10k in profit in a week?
- Exits
- How to identify stocks that are about to break out either up or down.
- How they determine buying and selling levels of their holdings
- entry and exits
- options
- patience

Question #5: Comments/Questions/Suggestions?

Thank you for all the feedback, feel free to contact us at any time with any other questions or comments.

- Place faith in Great Leaders, not including Obama.
- what we are learning to be success in history are negative concepts, it helpful for marketing science to stimulate all of any deserve.
- Enjoy and benefit from all discussions presented.
- When the bear market starts, how long will it last, how deep will be the fall and when do you think it will start?
- Option spread, iron condos and volatility calculations
- It is going to be a interesting week
- direction should have a middling choice
- Why don't you have a service that one of your traders can get a commission from recommended trades instead of paying large coaching fees up front?
- These are interesting times. Things are not what they seem.
