TimingResearch Crowd Forecast Newsletter (Beta)
Week 79 – 03/29/15 Report

Open-ended responses for Questions #1, #4, and #5 start on page 3.

Question #2. Based on any technical or fundamental indicators you want to use, would you predict that the S&P 500 index will move higher or lower next week? (from Monday's open to Friday's close; March 30 - April 3)

Higher: 60.4%
Lower: 39.6%

Question #3. Rate your confidence in your answer to Question #2 on a scale of 0 to 10 (with 0 being no confidence and 10 being extremely confident).

Average of All Responses: 6.438
Average For "Higher" Responses: 6.483
Average For "Lower" Responses: 6.368

Responses Submitted This Week: 48

Brief Analysis: Last week's bullish sentiment was incorrect as the market fell 2.23%. Despite the major drop, bullishness continues this week with just over 60% of respondents choosing "Higher." Average confidence is almost even again this week with a slight edge to those predicting "Higher."

Question #1. What developing events (technical or fundamental) will you be watching out for next week (March 30 - April 3) that might have a positive or negative impact on the S&P 500 and other US markets?

- Technically the market seems weak to me. Fundamentally the market is in need of a pullback to clear people's minds.
- "Employment situation report
  Greek negotiation with Germany
  Short trading week
  End of quarter machinations"
- The Nasdaq appears to have formed an Elliott wave 2/A-B-C correction.Along with a low in the daily and weekly RSI,which typically signals a bottom or near bottom.
- "GDP US growth.
  Earnings forecast"
- 200 day MA on S&P, Non farm payroll
- technical
- Mideast War
- Oil, Yemen, Iran, market technicals
- Dollar and oil.
- Market cycles, earnings warnings, end of month window dressing and profit taking, oil pricing, dollar increase/decrease
- GOLD and VIX.
- Chicago PMI & S&P case ? Schiller HPI
- Realization that earnings can go lower,, quarter on quarter, a phenomenon not seen for years.
- Mid east
- possible bounce for Weekly support level, and then down.
- Watching that the E-mini mkt stays below 2073
- crb indexes weak more deflationary pressure
- None, Easter holiday.
- Employment
- 401k deployment and monthly cycle favouring the first few days of the month
- "Euro vs Dollars
  Vix"
- oil,
- political drama in Yemen will drop spx between 10-15% over next 2-3 months
- Oil prices and dollar.
- Inside week, slightly up over last - net on week < 1% movement.
- cycles ending in the Fri-Monday 3/27-3/30 time period
- see if the sp is able to rebound at these levels with quarter end

- Yemen/oil and gold prices
- SPY 200 day average, Middle East wars, earnings, USO
- Fed statements
- Lots of data releases - ADP, NFPs - could be volatile altho short Easter week. Will good news continue to be bad for equities?
- Military conflicts

Question #4. What sectors/industries are you most excited about for long-term market growth and why?

- Biotech is where the progress will be because that is where the technology may help people directly
- bonds
- "Semiconductors
  Systems security companies
  Pharmaceuticals and Biotechs
  Mobile computing"
- Pharmaceuticals,I anticipate significant advances in cancer and alzhiemer treatments.
- "Biotech
  Technology"
- Health Care, Tech
- cosumer staples
- Health care because of aging boomers
- Health, tech, robotics and biotech. Government mandates, efficiencies and genetics.
- housing shotage
- Biotech, Hi-Tech because of potential growth
- Biotech - lots of new effective drugs in the pipe.
- tech, oil& gas
- Healthcare
- Oil
- biotech
- Personal Protection, for obvious reasons
- gold miners long term technicals look strong dollar is correcting
- Industrials, technical approach
- I will be buying energy after the next dip to around $35 oil
- Energy near bottom?
- healthcare and tech
- Medical-I want to get some of the money back in stock investments, that's going to make me broke in old age. Technical - always has something new.
- Healthcare (Obamacare will drive revenues). Internet security vendors. Sooner or later marijuana stocks are going 'higher'...
- Biotech to continue leadership since not affected by broader economic conditions
- Energy. Rotation into renewable sources should continue with rising demand albeit at a slower pace.
- Technology and Energy
- energy, if the next administration does not get in the way the US is finally the world leader in production. This means lower costs The single most important factor aside from less government
- Japan here we come. UDN, GLD, TLT. Watch the central banks destroy the world
- Oil, precious metals. When monetary system implodes, commodities will become new bedrock.

Question #5: Comments/Questions/Suggestions?

Thank you for all the feedback, feel free to contact us at any time with any other questions or comments.

- Will a war between Iran and Saudis come about?
- When the bear market comes, how long will it be?
- Is there an excel or cvs download for the history of higher/lower and confidence numbers?
- exiting new products, M&A fever and few blow ups
