*NOTE: The following open-ended answers are solely the opinions of the anonymous respondents to this survey. Responses are mostly unedited, but some have been reformatted slightly for to make them easier to read. Some irrelevant responses (e.g. "none"), or anything obviously fake, or copy and pasted responses have been omitted. All-caps responses have been changed to all lowercase. All responses for each week, unedited, are available in the raw data spreadsheets at [TimingResearch.com/data](https://TimingResearch.com/data).*

**Question #3. For your answer to Question #1, please share what specific reason(s) you think the S&P500 will be heading the direction you chose.**

**“Higher” Respondent Answers:**

- Without a vaccine and before the election this market has nothing on which to base a major move in either direction
- up into election
- my work says the SPX is going higher on Monday
- It's a toss up. Depends a lot on the health of Trump

**“Lower” Respondent Answers:**

- With the POTUS in the hospital, uncertainty has heightened on top of the election outcome. I'm scared too!
- Price on the S&P500 daily chart closed below the 50 SMA. Price at Resistance on weekly chart. Volatility high. Market indecisive. (4 weekly dojis). Market jittery due to Geopolitical conditions. President Trump in the hospital due to testing positive for the Corona Virus. Market does not like uncertainty.
- Momentum is slipping downward and interest in buying is waning, influenced by the large effect of covid on our economy.
- The trend has changed to down and it looks like the bounce is over. Trump and covid can only bring uncertainty.
